Contents Volume 67

Vol. 67, No. 1

Editorial vii
Guest-Editorial
Maintenance and reliability
P. Sander and W. Wang 1
Reliability Management
The building bricks of product quality: An overview of some basic concepts and principles
T.P.J. Berden, A.C. Brombacher and P.C. Sander 3
Accelerated stress testing in a time-driven product development process
Y. Lu, H.T. Loh, A.C. Brombacher and E. den Ouden 17
The use of quality metrics in service centres
V.T. Petkova, P.C. Sander and A.C. Brombacher 27
Analysis of quality information flows in the product creation process of high-volume consumer products
P.C. Sander and A.C. Brombacher 37
Maintenance
Calculating the expected failure rate of complex equipment subject to hazardous repair
R.D. Baker 53
A data deficiency based parameter estimating problem and case study in delay time PM modeling
A.H. Christer, C. Lee and W. Wang 63
Refining the delay-time-based PM inspection model with non-negligible system downtime estimates of the expected number of failures
A.H. Christer and C. Lee 77
Determining economical maintenance intervals
D.F. Percy and K.A.H. Kobbacy 87
Warranty Strategy
Optimal repair–replace strategies for a warranted product
N. Jack and F. Van der Duyn Schouten 95
Diary of Events 101

Vol. 67, No. 2

QFD in new production technology evaluation
A. Lowe, K. Ridgway and H. Atkinson 103
Selecting quality-based programmes in small firms: A comparison between the fuzzy linguistic approach and the analytic hierarchy process
G. Noci and G. Toletti 113
Investments and investment processes in professional service groups
E. Segelod 135
Developments of the payback method
S. Yard 155

Analysing organisational issues in concurrent new product development
B. Haque, K.S. Pawar and R.J. Barson 169
A nonlinear mixed integer multiperiod firm model
R. Östermark, H. Skrifvars and T. Westerlund 183
Letter to the Editor
Observation on: "Economic production quantity model for items with imperfect quality" [Int. J. Production Economics 64 (2000) 59–64]
L.E. Cárdenas-Barrón 201
Diary of Events 203

Vol. 67, No. 3

Specialization, teamwork, and production efficiency
S.G. Powell 205
Integrated batch size and setup reduction decisions in multi-product, dynamic manufacturing environments
M. Diaby 219
Coordination of internal supply chains in vertically integrated high-tech manufacturing organizations (HTMOs)
A. Ugarte and S. Oren 235
Total product quality
D.N.P. Murthy and K. Ravi Kumar 253
An extended newsboy problem with shortage-level constraints
M.S. Chen and C.C. Chuang 269
Complementarities between JIT purchasing practices: An economic analysis based on transaction costs
J. González-Benito, I. Suárez-González and M. Spring 279
Diary of Events 295
